District Profile

The MANTECA-LATHROP RURAL COUNTY FIRE PROTECTION DISTRICT was established in 1936 to provide fire protection for the township of Lathrop, rural Lathrop and rural Manteca. The Fire District was organized under the laws of the State of California, Health and Safety Code section 13800, more recently known as the Fire Protection District law of 1987. It is governed by a five-member Board of Directors who are elected at-large to serve a four-year term. Since 1936, the District has developed into a proactive Fire Department covering nearly 100 square miles including the recently incorporated City of Lathrop. The District currently employs 40 career personnel and 26 reserve firefighters that staff four strategically located fire stations.

In February of 2002, the Board of Directors changed the name to the LATHROP-MANTECA FIRE PROTECTION DISTRICT (LMFD).

The LMFD the majority of the City of Lathrop and the rural Manteca Area which is located in Northern San Joaquin Valley at the intersection of I-5 and 120 Freeways. Sitting aside Interstate 5, one of the major freeways in California and the major north-south freeway along the entire West Coast, Lathrop sits in the center of a metro triangle, bounded by the Bay Area, Stockton and Sacramento. Lathrop is centrally located within a 30-minute commute of Tracy, Manteca, Stockton, Lodi, Modesto, Livermore and Pleasanton.

Lathrop's Population in 1989 was approximately 5,000. Lathrop's current population is nearly 24,000 and was expected to reach 35,000 by the 2020 census count. With a projected "build out" population of 70,000, Lathrop is experiencing a unique opportunity to plan and manage its future development in a manner seldom available to other communities in Northern California. The City of Lathrop is one of Northern California's fastest growing and most comprehensive Master Planned Communities. We are a city at the cusp of extensive residential and commercial growth.

The City of Lathrop has a seven-mile radius population of 105,893 with an average household income of \$63,072.

The 20-mile radius surrounding Lathrop has a current combined population of nearly 750,000 and an expectation that this number will approach 1 million within ten years.

Over 40,000 vehicles per day commute over the Altamont Pass into the Bay Area for employment. There is a strong demand for housing from the Bay Area as residents are moving to affordability.

Lathrop Developments

Residential construction is currently underway

2,500 units Master Planned Community

Freeway Commercial – 27 acres at SWQ I-5/Louise - Lathrop Marketplace - Anchor is Target

Nearly 1 million square feet of retail/office space

Central Lathrop Specific Plan

1,540-acre site – west side of I-5, north of Louise Ave.

Up to 6,800 dwelling units, including low density, medium density and high density

Site for power center and other retail uses along west side of I-5

Nearly 4.5 million square feet of office commercial in Lathrop's I-5 regional commercial corridor

Southern Lathrop Specific Plan

315-acre Planned Freeway Commercial

Over 5 million square feet of distribution warehouse

The Fire District is organized to maintain professional personnel on duty, 24 hours a day, year round, to respond to emergencies from four fire stations. The Fire District's main fire station is located in the center of the City of Lathrop. The authorized career personnel strength of the Fire District includes 40 uniformed employees. Although currently operating with a Fire Chief, (4) Battalion Chiefs, (12) Fire Captains, (23) Firefighters/Engineers. A reserve firefighter roster of up to 26 members is maintained to augment the fire suppression force.

Since the incorporation of the City of Lathrop in 1989, The Fire District has developed plans to provide adequate coverage for the potential urban growth of the new City. The District-wide fire suppression force is organized into three shifts. Each of the shifts is on duty for rotating periods of 48 hours. In the Administrative Office, there are four non-safety employees an Executive Assistant, Permit Clerk, Office Clerk and a Fire Inspector.

The main Fire station is located at 800 East "J" Street in the City of Lathrop. Fire apparatus housed at this fire station consist of (1) Type 1 Pumper, (1) Type 1 Pumper, (1) Type 2 Truck, (1) 3000 gallon Water-Tender/Pumper, (1) Water Rescue/Dive Unit, and (1) Heavy Rescue Truck. Other fire apparatus located at the remaining stations consist of (5) Type 1 Pumpers, (2) Type 3 Pumper, and (1) Type 1 OES Engine. An aggressive fire prevention and code enforcement program is utilized, adopted by reference by both the City of Lathrop and the Fire District with some local additions, deletions and amendments. Companion ordinances establish fees for services, which include charged re-inspections that are required by the California Fire Code and State Fire Marshal's regulations.

The Fire Marshal along with the Deputy Fire Marshal administers the District's fire prevention and code enforcement program. Plan checks are done by the Fire Marshal along with the more complex inspections. The Fire Inspector conducts inspections and annual re-inspections. Fire Company personnel conduct pre-fire plans for all the businesses in the entire district. Additional fire safety programs include smoke detector installations for the elderly and disabled, along with fire safety and awareness in the schools. The Fire District provides continuous CPR training classes to the community. It is statistically proven that by training the citizens it will enhance the survival rate of a sudden death victim significantly. The Lathrop-Manteca Fire District responds, not only to fires of all types, but also medical emergencies, hazardous material leaks/spills, traffic accidents, and river rescues.

The Fire District is an active member of the San Joaquin County hazardous materials response team. The District is also the nucleus for developing a highly skilled urban search and rescue team.

Budget Introduction

The Fiscal Year (FY) 2018/2019 Budget and Operational Plan represents the Fire District's projections for expected expenditures and operations for the coming fiscal year. It also identifies the means by which those expenditures will be paid. The annual Budget / Operational Plan represent the most significant policy document that the Fire District Governing Board creates each year. This document sets the work plan and the service levels for the operating divisions of the District. Many of the outlined goals and objectives are based on the Strategic Operational Objectives Plan (SOOP), which is developed prior to the construction of the Budget / Operational Plan each fiscal year. The budget is balanced and illustrates the District's ongoing commitment to contain expenditures to necessary and reasonable levels.

The annual budgeting and operational activities of the Fire District are determined with the ultimate goal of accomplishing the Fire District's mission, which is:

The Mission of the Lathrop-Manteca Fire District is to protect Life and Property through Efficient and Dedicated Response to the Emergency Needs of Our Community Delivered with Care, Skill and Compassion to All Who Need Our Aid.

Financial Assessment:

The Fire District has an important responsibility to its citizens to carefully account for public funds, manage finances wisely, and plan for the adequate funding of services desired by the public. In these times of economic uncertainty and limited growth in the District's tax base, the District needs to ensure that it is capable of adequately funding and providing those core services desired by the community. Ultimately, the District's reputation and success will depend on the public's awareness and acceptance of the management and delivery of these services.

The development of guidelines for the District's overall fiscal planning and management should foster and support the continued financial strength and stability of the Lathrop-Manteca Fire District and its financial goals. Through the establishment of sound financial policies, the District seeks to:

- Deliver quality services on an affordable, efficient, and cost-effective basis providing full value for each tax dollar.
- Maintain an adequate financial base to sustain the current level of fire and emergency medical response.
- Have the ability to withstand local and regional economic fluctuations and respond to changes in funding affecting District operations.

Financial Policies:

Establishing and following sound fiscal policies enhances the District's financial health as well as its image and credibility with its citizens and the public in general. The Board is charged with establishing financial policies and staff is responsible for implementing those policies in the day-to-day management of District finances.

The District's budget is closely aligned with the financial policies established by the Governing Board. These policies serve to strengthen the current and long-term financial health of the organization and are visited, at a minimum, on an annual basis to ensure they represent the most current and realistic framework for decision-making. A balanced budget is the foundation of the District's financial policies. The Board and District staff members define a balanced budget as one that matches required expenditures necessary to provide the District's established service goals with available, sustainable resources. The Board and the staff spend an extensive period of time detailing expenditures and identifying and verifying the revenue sources that are available to support those expenditures. As revenues fluctuate, so must expenditures. However, the Board and staff must strive to ensure that these fluctuations do not negatively impact emergency service levels.

Funding Overviews

The Lathrop-Manteca Fire District currently use five major fund groups: the General Fund, the Capital Outlay Fund, the Facility Fee Fund, the Measure C Fund, and the Developer Account Fund.

General Fund:

The General Fund, or working fund, outlines in detail, anticipated revenues and expenditures for FY 2018/2019. This fund's activities represent the true financial plan for the Lathrop-Manteca Fire District during the fiscal year. During the beginning months of each fiscal year, generally between July and October, the District receives little or no property tax revenues. This is a direct result of San Joaquin County property tax billing and collection cycle. Property taxes are levied and billed to taxpayers annually and payments are due in two installments. The first installment is due during October and the balance is due in April of each fiscal year.

Capital Outlay Fund:

The Capital Outlay Fund is in effect, the District's "savings" account, which was established through Board action to support the Capital Improvement Plan designed to fund future capital purchases. Revenue sources for this fund include transfers from the General Fund as allocated through the Capital Fund Account. This account will carry a fund balance from year to year, as capital projects may encompass many years.

Facility Fee Fund:

The Facility Fee Fund has revenues and expenditures based on the economic development in the District. A detailed account of the current balance is reviewed every fiscal year during our budgeting process. At the end of the fiscal year, a report has to be given to San Joaquin County and the City of Lathrop for their adoption. Every five years a full report is given to both entities, showing a detailed plan for the expenditures applicable for this account.

Measure C Fund:

On November 6th, 2012 over 77% of the City of Lathrop passed Measure C, which provides funding for Public Safety within the boundaries of the city limits. On November 19th, an agreement was formalized between the City of Lathrop and the Lathrop-Manteca Fire District that the District would receive 40% of those funds to augment and provide enhanced fire services.

Developer Account Fund:

The Developer Account Fund was established to account for billing for services provided during development projects. Over the last few years an extensive amount of time is exhausted when developers come to the Fire District requesting information regarding the long term financial stability of the Fire District, and the service impact the proposed development will cause. This account is to fund any and all billing that will be required to research, acquire outside services, and provide staff time to facilitate the developer(s)/developments when requested.

Fund Balance Summary:

Each fund is considered to be a separate accounting entity which may or may not carry a fund balance. Fund balance is generally defined as the difference between a fund's assets and liabilities. The operations of each fund are accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures as appropriate. The District reports each of these funds as major governmental funds in its financial statements. All District audited financial statements are presented using the modified accrual basis of reporting.

Budget Message

The FY 2018/2019 budget process is in the midst of economic improvement at national, state, and local levels, while some stability has taken place the sediment of being conservative remains. The previous years of declines in development-related fee revenues and property values and falling interest rates, coupled with higher inflation and increases in gasoline and commodities prices. These trends, provide a continuing somewhat guarded outlook for the next few years.

The Fire District cannot and will not ignore the fact that hard-hitting financial times experienced by many District property owners and sustained economic challenges still continue. The persisting uncertainty in the overall economy presents a considerable challenge in developing the FY 2018/2019 budget.

The Board has provided key directives and goals for consideration during the FY 2018/2019 budget process. Given the economy uncertainty and the forecast for slowed recovery, the Board has directed staff to present a budget that maintains core services but that continues to exclude any “non-essentials.”

Many factors were considered when preparing the District’s financial plan for the FY 2018/2019 Budget and Operational Plan. Some of these factors included:

- Fluctuation of property tax revenues due to changes in the economic environment.
- Changes in population or other service-level indicators.
- Changes in political environment.
- Anticipated changes in property values within the District.
- Recent annexations contributing to the decline of the District’s service boundaries.

During a strong economy, the District prepares for an economic downturn by maintaining financial reserves. Such preparation gives the District the flexibility to maintain the current level of services being offered to the citizens. The FY 2018/2019 budget presents a responsible financial plan that enables the District to continue to deliver its vital services at present service levels but eliminates most “nice to haves” in exchange for “have to haves.” A significant number of expenditure reductions are an integral part of this year’s budget balancing strategy. These reductions were not applied on an across-the-board basis. Instead, District management requested reductions focused on preserving the Fire District’s core services while reducing or eliminating non-essential funding wherever possible.

Non-Financial Goals and Objectives

Financial policies are essential to the effective fiscal management of the District; however, they must be coupled with strategic, long-term non-financial planning processes in order to support an effective organization. The District will use a strategic planning process to update its goals and objectives annually in conjunction with the annual budget process. The goals and objectives, identified under strategic priorities as set forth in the Strategic Operational Objectives Plan (SOOP), determine the framework for prioritization of budget requests and the overall allocation of resources. The SOOP is developed collaboratively through participation and input from the Board, administrative and management staff, employee representatives and the public. Progress towards planned goals will be evaluated on a bi-annual basis and during any update process. External factors such as the national or regional economy, demographic changes, statutory changes, legislation, and mandates will all be considered when updating or setting new goals and objectives.

The following are the 2018/2019 Strategic Goals as outlined in the SOOP:

1. Formally establish clearly defined governance policies
2. Provide a pathway to good governance certification
3. Engage the community to support and provide volunteer service to enhance our mission
4. Begin to lay a foundation for regional training

The District's SOOP Strategic Priorities are detailed through a series of Action Items used as benchmarks to measure progress towards goal completion. Each Strategic Priority and the associated Action Items are listed as follows:

Strategic Priority #1:

- Action Item 1.1 – Retain a Consultant to assess and produce missing governance policies
- Action Item 1.2 – Main an up-to-date policy manual for all line personnel to review and follow
- Action Item 1.3 – Provide public access to all policies and procedures

Strategic Priority #2:

- Action Item 2.1 – Become a member of the California Special District Association
- Action Item 2.2 – Provide training to all Board Members to obtain District of Distinction Accreditation
- Action Item 2.3 – Apply for the District of Distinction Accreditation

Strategic Priority #3:

- Action Item 3.1 – Establish an updated and progressive explorer program
- Action item 3.2 – Grow an enhanced, more inclusive C.E.R.T program
- Action Item 3.3 – Support all efforts of “Behind the Fire LMFD” to enhance community involvement with the Lathrop – Manteca Fire Organization

Strategic Priority #4:

- Action Item 4.1 – Train personnel to establish a consortium of quality instructors
- Action Item 4.2 – Establish a Regional Firefighter 1 Academy to be held annually
- Action Item 4.3 – Revive the Rescue Systems I training center and provide classes throughout the region

Revenue Analysis

General Revenues include all the property taxes that the district receives. This has been separated into several different descriptions, which consist of secured and un-secured taxes. Most secure taxes refer to properties that have a secured assessment applied to it. The unsecured would be taxes that have no security attached to them. This Revenue is collected by San Joaquin County and Allocated to our account in two installments. The first installment is in November and the second is in April.

Revenue Analysis

Intergovernmental Revenues are received from Permits, Out of District Billing, Taxes from Mobile Homes, Property Override tax and other services. This revenue is collected throughout the year and posts to our account monthly. The only exception is the Tax Override; this source is collected by San Joaquin County and allocated the same as the Property Taxes.

Wages and Benefits

District compensation and benefit data is contained within this section of the annual budget document. This section of the operating budget tends to be the most unpredictable and the most difficult area in which to project actual expenditures for the entire fiscal year. It is analyzed from every possible angle in an attempt to avoid over or under budgeting. These budgeted expenditures have been meticulously calculated ensuring that only appropriate values have been assigned to each line item. Items such as employment taxes, retirements, and worker's compensation costs are requirements under Federal and/or State mandates. In order to remain competitive in the local market place, the Board has also dictated that certain benefits be provided to preserve the District's exceptionally skilled labor force. The various project managers have also submitted budget requests for estimated overtime and other wage related expenditures.

Loss of employees creates financial issues based on the costs associated with training new employees and the vacancies created within the daily staffing model, which requires overtime personnel to fill. Another turnover, related issue is the loss of experienced personnel with historical knowledge, which can lead to operational deficiencies.

An additional factor that is commonly used by the District in determining annual wage scale enhancements has been competitiveness with neighboring special district emergency service agencies. This is perhaps the most valuable process as wage and benefit competitiveness is vitally important in maintaining a stable and satisfied work force. However, District management does feel that the highly qualified and dedicated personnel in this District, who provide compassionate and expert care to the property owners, deserve to receive wages and benefits that are at least equitable with those of other departments/districts in the Valley.

Wage and Benefit Goals

FY 2018/2019 Performance Goals & Objectives

- Continue to research alternative benefit plans to reduce the Districts' future liability.
- Continue to provide an update accrual list to help monitor the employee vacation and sick leave balances.
- Continue to monitor the retirement plan and look for cost saving alternatives.
- Continue to look for alternative way to help increase the daily staffing levels.

Administrative Expenses

The administrative component of this segment includes the following: general administration and records management; clerical support, continuous review, revision, and enforcement of the District Policy and Operations Manuals. The records management responsibilities include serving as legal custodian of the District’s official records; coordinating public records request fulfillment; and records retention and destruction processes.

The information technology component of this section is responsible for District-wide integration and coordination of all technology applications; managing the District’s wide area data network; work station computers; e-mail resources; District webpage; employee scheduling; the District’s data management systems (i.e. Firehouse software) which handle incident reporting and other information; Fire Prevention occupancy and inspection records; and training records. To enhance effectiveness and efficiency, the District is increasingly utilizing technology in all facets of its operations. Correct and reliable statistical information is also vital to the District in terms of grant acquisitions, accreditation accomplishment, and growth planning projections.

Administration

FY 2018/2019 Performance Goals & Objectives

- Continue the skillful and responsible management of the District's monetary resources to optimize the public's investment.
- Continue the pursuit of strategies that minimize tax levy dependence through alternative revenue sources.
- Continue to refine the accounting system and revise policies and procedures where necessary.
- Continue to review the proposed Districts five-year model and determine timelines and future financial impact.
- Successfully conduct orientation for newly hired employees.

Support Services

The support service section in the budget covers Equipment Maintenance, Radio Maintenance and Replacement, Fuel, Lubes and Oils, and it also includes Tire Replacement.

The equipment maintenance portion of the Support Services ensures that preventative maintenance and repair work is performed on all District emergency apparatus, light trucks, automobiles, and specified communications equipment. Personnel also project apparatus strengths and weaknesses to estimate apparatus life expectancy for the vehicle aging/replacement schedule. Although this portion has been reduced in an effort to save cost, this fiscal year we will be only conducting annual maintenance instead of the traditional bi-annual maintenance performed in the past.

The radio portion covers ongoing maintenance and future replacements. The new unfunded mandate requires all emergency services to move into the narrow banded technology within this year’s budget. The next mandate coming will require the District to move to the digital age. This mandate will require the District to replace some outdated equipment in the upcoming Fiscal Years.

The fuel, lube and oil cover the cost of the day to day operational replacement apparatus fleet we currently operate. This does not cover the annual oil changes that have been budgeted in the equipment maintenance portion.

FY 2018/2019 Performance Goals & Objectives

- Continue to maintain apparatus, equipment.
- Continue to maintain replacement schedule for vehicles, large equipment, and smaller capital items.
- Maintain all spare fire apparatus in a ready state for usage (“turn-key operation”).

Station and Grounds

The District must maintain facilities to house both the personnel and the apparatus that support the District’s mission. The increase is partly due to the long needed replacement of the apparatus bay pad along with some pavement repairs. This increase will be partially funded by the Operating and Maintenance revenues received by the City of Lathrop.

The following table outlines details regarding the Facilities Maintenance Expenditures for the coming fiscal year:

<i>Fiscal Year 2018/2019 Expenditures</i>	<i>FY 2016/2017</i>	<i>FY 2017/2018</i>	<i>FY 2018/2019</i>	<i>Projected</i>

FY 2018/2019 Performance Goals & Objectives

- Continue to maintain facility maintenance and repairs.
- Continue to manage the District's wide area data network, the District's intranet, internet and e-mail resources, all District desktop PCs and related equipment and PC software.
- Continue to update existing intranet for easier access to pertinent information for employees.
- Continue support for fire and medical information programs as well as the links from the Communications Center to the District's emergency management reporting system.
- Continue to work towards a paperless office environment.

Emergency Operations

This Section contains all expenditures related to firefighting and personal protective equipment acquisition, maintenance, and supplies. The District strives to obtain and maintain the appropriate tools for employees to safely and effectively provide the services necessary to protect District property owners. The Personal Protective Equipment (PPE) Program ensures all District personnel possess a complete set of PPE clothing and equipment which is maintained in a safe and functional condition. The program is also responsible to regularly maintain, replace and/or repair any component of the assigned PPE equipment and performs other related tasks as required.

The Training / Development Section provide coordination for both the training and development of current suppression personnel as well as providing an active role in the recruitment of new District personnel. The primary focus of this section is to provide ongoing training for emergency personnel. Continuing Education is required by local, state, and federal regulations and standards (including NFPA Standards Volume 10, OSHA Regulations 29 CFR 1910, and the California State Fire Marshal’s Office. The Training and Development Section also coordinates instruction on any new organizational procedures and guidelines.

This budget category provides for the emergency medical disposable or consumable supplies used by the District throughout the fiscal year. These include but are not limited to: medical oxygen, tubing and fluids, bandaging materials, sterile gloves, immobilization gear, airway tools, etc.

FY 2018/2019 Performance Goals and Objectives

- Maintain an adequate inventory of firefighting equipment and supplies.
- Maintain the District's Wildland Response Team equipment and supplies.
- Maintain all equipment in a state of good repair for the safety of all firefighters.
- Replace PPE items based on manufacturer's recommendations or as a result of irreparable damage.
- Maintain employee certification for PPE repairs and maintenance.
- Maintain comprehensive and accurate records concerning PPE training, equipment maintenance, equipment allocations, etc.
- Maintain adequate number of Red Card certified personnel in the District.
- Assist with advanced Wildland certifications for interested employees.
- Maintain all Wildland apparatus supplies, equipment and personnel in a ready state for immediate deployment at any time day or night.
- Continue to facilitate and provide yearly physicals for required District personnel.
- Continue to facilitate and provide annual driver's training and driver's license checks for District personnel.
- Provide initial drivers training programs for new employees and volunteers.
- Continue to audit District facilities and equipment for regulatory agency compliance and safety.
- Evaluate and revise District safety policies and procedures where needed.

Prevention

The LMFD also administers an aggressive fire prevention and code enforcement program. The LMFD adopted by reference the City of Lathrop Municipal Code as it relates to LMFD. Companion ordinances include the California Fire Code and State Fire Marshal’s regulations. The Chief, as the Fire Marshal, administers the LMFD’s fire prevention and code enforcement program.

The Fire Marshal administers the District’s fire prevention and code enforcement program. Plan checks are done by the Fire Marshal along with the more complex inspections. Fire Company personnel conduct inspections and annual re-inspections, Additional fire safety programs include smoke detector installation for the elderly and disabled, along with fire safety and awareness in the schools. The Fire District provides continuous CPR training classes to the community. It is statistically proven that by training the citizens it will enhance the survival rate of a sudden death victim significantly. The Lathrop-Manteca Fire District responds not only to fires of all types, but also medical emergencies, traffic accident, and river rescues.

Prevention and Public Education

FY 2018/2019 Performance Goals & Objectives

- Continue with promotional and educational programs for the community.
- Continue to explore new partnerships to assist in delivering our educational safety messages to the community.
- Establish Citizens Academies and S.T.A.F.F. Volunteer Program.
- Complete all priority inspections to reduce potential for life loss within a 30-day variance of their scheduled time.
- Complete all plan reviews and permit/user fee invoices within a 30-day period from the time received.
- Maintain annual fire prevention / investigation training program for District fire.
- Evaluate access/egress capabilities in the newly annexed areas and work to improve any issues.
- Update records and forecast District growth related issues on an annual basis.
- Enhance and continue to develop closer working relationships with landowners and developers in Fire District's areas.
- Plan for service issues associated with the District's growth planning areas including efforts to define and then secure future station sites and service need timelines in conjunction with accreditation.
- Identify and secure resources and alternative funding for programs.
- Monitor and evaluate performance measures for existing and new District Community Risk Reduction programs.
- Develop a plan to guide the District in developing an Emergency Operations Center. Alternative funding sources should be explored and included in final plan.
- Update/revise District Disaster Plan. Final plan should integrate with San Joaquin County and Lathrop City's Disaster Plan and upon adoption, should be distributed to affected agencies.
- Identify target hazards and audit community response needs.
- Maintain a training and exercise plan to evaluate and improve the major emergency response plan of the District.
- Continue the fostering of hazard mitigation throughout the District via public education and plan development.

Insurance

District employees work in an atmosphere where they are faced with potentially life threatening or bodily injury situations on a daily basis. The risk to their lives and livelihoods is greater than that of the average private sector employee. This results in elevated annual premiums for Worker's Compensation Insurance. Premium rates differentiate between each Worker's Compensation Class and can change from year to year based on industry trends. The District did experience an increase in the Fire Fighter's Classification rates for FY 2017/2018 resulting in an increase in this budget expenditure. However, the District focuses on safety both in the field and in its facilities, which has resulted in reduced instances of reportable injuries. This aids the District in maintaining a steady and more predictable premium.

The District must ensure that its assets are protected to prevent any possible disruption in the services it provides to District property owners. To provide this assurance, the District obtains insurance policies that will replace property due to damage, theft, or loss. The District also retains insurance coverage to protect against unforeseen or unidentified potential liabilities.

FY 2018/2019 Performance Goals & Objectives

- Continue to use captured information pertaining to the nature and number of on-the-job injuries sustained by personnel for the purpose of developing and implementing focused prevention initiatives.
- Continue to monitor personnel who repeatedly emerge in Worker's Compensation claims.
- Continue to develop and implement programs designed to reduce the incidence of on-the-job injuries (e.g., flyers/brochures, incentives, awareness campaigns, training).

Firefighter Health and Safety

The Health and Safety Section is responsible for overseeing the general safety and health of the District employees. The goal of the Health and Safety Section is to educate and train employees regarding safety awareness and to assist them in maintaining a minimum level of physical conditioning to prevent personal injury during their job performance. The District provides facilities to encourage self-awareness of individual physical abilities as well as strengths and weaknesses. By increasing awareness of potential safety hazards both on emergency scenes and in the District’s facilities, the District strives to reduce the occurrence of workplace accidents and injuries. The District and its personnel are required to observe the Occupational Safety and Health Act (OSHA) requirements as well as other regulations and standards set by national organizations such as the National Fire Protection Agency (NFPA). This budget category allocates funding to assure that the District is in compliance with these regulations and standards.

FY 2018/2019 Performance Goals & Objectives

- Develop peer fitness program - complete fitness assessments for shift personnel.
- Develop guidelines for exercise and nutrition for shift personnel.
- Facilitate return to work and fit for duty issues for District personnel.
- Investigate all employee injuries and accidents.
- Evaluate Workers Compensation claims for common injuries. Determine effective ways to reduce these types of injuries with preventative education programs.
- Evaluate and maintain quality pre- and post-exposure services.
- Evaluate and possibly implement Employee Safety Handbook.
- Continue to administer required annual employee inoculation program.
- Continue to evaluate current Critical Incident Stress Debriefing needs. Explore options and develop a plan to deal with current as well as future needs including utilizing CISD teams from neighboring jurisdictions.
- Review and revise Infection Control Plan as necessary.
